

### **Who would milk the cows?**

You know, because if they left us tomorrow, I'm not sure what we would do. You know, who would milk the cows? Who would do anything around here? Who? There's not enough of us. And you certainly can't get help overnight to come in and help us. So I feel that, you know, it would be a hardship for us.

CU: Is there ever something that you've imagined happening?

Oh, yes. Oh, yes. Yes. Because you hear about it in other places where they've gone in and taken all the workers and you just wonder, are we going to be the next ones?

CU: Have you had sleepless nights?

Oh, yeah, yeah. There's been nights where you worry about them, you know, they're just like, I guess they're just like my own children. That's the way I treat them, you know? I feel they should be treated equally.
